THE CONFIDENCE KING PULLED UP SHORT IN HOBOKEN.

A Long Career of Swindles Among Immlgrants-His Neat Little Check Game-Going to the Pier in a Cab and Pretending to Be a Passenger Looking for Buggage-A Victim's Suicide.

Ike Vail, the king of the confidence men, the slipperiest of the lot, a man who has swindled more people and served less time in prison than any of the gentry, is again in

Capt. Gastlin, in the series of interesting police captains' stories published in The EVENING WORLD, told of the first apprehension of this clever swindler. This time Ike's captor was Deputy Marshal Fred Bernhard.

Besides his duties in the service of the General Government, Mr. Bernhard is employed by the North German Lloyd Steamship Company to protect its patrons from thieves and swindlers at its Hoboken docks. Vail and his gang of operators have been the bane of Bernhard's existence in his capacity of watchdog and has been plying his swindling trade for a year or more with-out being apprehended.

His method of operation was to go onto the dock when a steamer was about to sail and

Marshal Bernhard says that if he cannot and Vall in prison at once he can, under the New Jersey law, have him sent up for at least three months as a suspicious character, and by the time that sentence expires he may secure from Germany the witnesses who can convict him of felony.

DYNAMITER MOONEY TO GO FREE.

The Would-Be Destroyer of the Queen Declared Sane by the Asylum Physicians.

Thomas J. Mooney, the dynamiter who attempted to set fire to the steamship Queen on Aug. 3, 1887. by throwing a phosphorus bomb on board, and who was atterwards sent to the State Lunatic Asylum at Utica, has been declared a same man by the physi-cians of that institution, and it is sa'd he will

be set free to-morrow.

In February last the avowed dynamiter had a writ of habeas corpus obtained in his behalf, and was brought before Judge Patterson on the plea that he was a sane man. Dr. Fleld examined him under an order of Court, and declared him still mad. It is not known

and declared him still mad. It is not known by what means he now succeeds in having that decision overruled.

Mooney was in a Poughkeepsie lunatic asylum before his attempt on the Queen, but was prematurely declared cured and relessed. He lives in Brooklyn, and it is expected he will show up there as soon as he can get down from Utica.

Mooney as a sane man complains bitterly of the treatment he received at the hands of those "for whom he ventured his life, liberty and property," and is particularly embittered against O'Donovan Rossa, with whom he says he had a falling out.

BAD WORK ACKNOWLEDGED

MR. HAMILTON FISH TALKS TO THE FAS-SETTICOMMITTEE.

The Blame, However, He Says, Rests with the Civil-Service Commission for Sending Bad Men for Inspectors—He Also Reflects on the Accuracy of tien. New-ton's Statement About the Rubble Work.

The Special Senste Committee investigat. ing into the conduct by the Aqueduct Commissioners of the immense work in their hands met again in the Tweed Court-House to-day. Chairman Fassett and Senators Mc-Naughton, Hendricks and Van Cott were present, and Commissioner Hamilton Fish, jr., continued his testimony under cross-examination by De Lancey Nicoll.

Not many questions were asked, for Mr.

amination by De Lancey Nicoll.

Not many questions were asked, for Mr. Fish came "loaded for bear," and tolda running story backed up with documents, to which he frequently reforred.

He said there had been no adverse report from Judge Morgan J. O'Brien, who was then Corporation Counsel, to the resolution regarding extra excavation, and as Mr. O'Brien was present at every meeting of the commission he supposed that the latter favored the resolution or he never would have voted for it.

Judge Spencer, Gen. Newton and Commissioner Barnes composed the special committee. The eight-inch allowance, "typical cross section" was adopted, but the contractors objected.

"I say," reiterated Mr. Fish, in answer to Senator Fassett, "that Judge O'Brien s adverse opinion, if he had any, was never reported to the commission by the special committee: but Judge O'Brien was always present, and the commission, fearing law suits, disregarded the protests of the contractors and adopted the typical cross-section as the most equitable basis of settlement."

Regarding the question of filling in about the tubing with rubble masonry, Mr. Fish said the Construction Committee consisted of Gen. Newton and Commissioners Barnes and Spencer. They held a meeting, but left the decision of the rubble masonry question to Chief Engineer Church.

"Gen. Newton says he kpew nothing

the decision of the rubble masonry question to Chief Engineer Church.

"Gen. Newton says he knew nothing about this question and its \$1,000,000 extra expense, but he was present at the meeting and voted for the resolution."

By lesolution offered by Gen. Newton, Commissioners Ridgway and Fish were dropped from the Construction Committee, but Jan. 1, 1887, the whole commission was made a Committee on Construction. On April 19, 1887, the rubble matter was considered, and on June 13 a report was made by Consulting Engineer Alphonse Fteley adverse to the use of rubble masonry all along the Aqueduct, but only where the rock was

The friend generally loaned the money and kept the check as a reminder of his encounter with Gentleman Ike.

Mr. Bernhard has several of these checks in his possession, one of which may result in Ike Vail's patronage of a convict tailor for several years.

The steamship Eider sailed June 16, and a poor steerage passenger went on her minus 975 in money, which he had before a scraped a chance acquaintance with Vall on the dock.

The check which he received as security was for \$550, drawn on the Chemical Bank, of this city, by 8. H. Hamilton & Co., to the order of George L. Morgan.

The money was all in German bills of 100 marks, &c., and was exchanged by Vail at Clark's money exchange, corner of Chambers kirest and Park row.

One of Ike's victims, a poor fellow who had been swindled by the Confidence King out of all his little savings, attempted to commit suicide by impring from the steam ship on the voyage over.

To make his claim that he was a prospective passenger appear the more real. Vail at committee was leaded to the dock in a cab and busined about with a menty leather hat box in Standard, send that he money may be about the result of the money was all in German bills of 100 marks, &c., and was exchanged to Vail at Clark's money exchange, corner of Chambers kirest and Park row.

WILL THEY BRING HIM BACK?

OSIE'S FRIENDS WILL MAKE AN APPEAL FOR HIM TO-NIGHT.

The Hearing of "The Evening World's" Demand for an Inspection of the Juve-nile Asylum's Books to Be Had This Afternoon-Mr. De Lancey Nicell to Present the Cuse in Court.

Judging from the wide and ever increasing nterest which it is exciting among the people of this city, the case of little Josie Shephard, the exiled orphan boy, bids fair to become one of the most celebrated in the annals of the town.

Day after day THE EVENING WORLD has given to the public the result of its investigation of the matter, and has shown conclusively how he was sent away by misrepresentations on the part of those whose duty it was to see that the child should be supported by his natural guardians, if he had any, and by furnishing insufficient evidence of the facts in his case to those gentlemen who compose the Indenturing Committee of the Juvenile Hospital.

At the present time there is hardly a person in the city who does not know of the case in all its details, and follow with interest each step in the proceedings which, it is hoped, will bring Josie back to his home and friends once more.

The case will come up late this afternoon in the Supreme Court Chambers, before

in the Supreme Court Chambers, before Judge Ingraham, on a motion for a mandamus to compel the officers of the New York Juvenile Asylum to permit a representative of The Evening World to inspect the record-book at the House of Reception in West Thirteenth street.

The Evening World has already explained that the law provides that this book, in which the names of the children committed to the institution, together with the date of their entrance and discharge and parentage, are registered, shall be always kept open for the inspection of any one wishing to examine it.

Although the law on this subject is explicit Supt. Carpenter, of the House of Reception, who has the custody of the book, and is bound to show it whenever requested to do

cit Supt. Carpenter, of the House of Reception, who has the custody of the book, and is bound to show it whenever requested to do so, refused to produce it on three separate occasions when requested to do so by The Evening Woshlo's representative, and appication to Secretary Peter Carter meeting with equal ill-success it was decided to compet the officers under the law to permit the book to be examined.

The argument in behalf of The Evening Woshlo will be made this afternoon by Mr. De Lancey Nicol, its counsel, who will show what the law requires and how its provisions were set at defiance by Supt. Carpenter.

The Indenturing Committee, of which Mr. Charles D. Adams is Chairman, which sent Josée Shephard away upon the misrepresentations of Supt. Carpenter, will have one of its regular meetings to night at the House of Reception, in Thirteenth street. The grandmother, Mrs. Elizabeth Shephard; Mr. Andrew Grant and his friends will be there to make another effort to induce the committee to bring back the child.

They will show the committee that they were misled by the representations made by Supt. Carpenter, that they are able to take care of the child, and that it was sent away from them without any effort being made to notify them that the boy was to be transferred.

It has been learned that it is not unusual

ferred.

It has been learned that it is not unusual with Supt. Carpenter to send no notification to relatives of a child in the institution unless they are his parents, and there is pretty conclusive proof that no such notification as the rules of the asylum require was sent to Mrs. Shephard before Josie was sent away.

There are many people who are willing to

There are many people who are willing to testify as to Mr. Grant's ability to support the child if he gets it for adoption, and they will be present to-night to give their aid in

covering the child. If Jose is not at once brought back from the West and restored to his friends, it will not be because there is any lack of evidence o show that a great wrong has been done, but that having once committed an error, the persons who are responsible for it have n t the manliness to acknowledge and rectify it to the best of their ability.

TWO VETOES SQUELCHED.

The Aldermen Say the Fifth Avenue Stage Company May Sprinkle Sand.

The Board of Aldermen met to-day, Vice-President Dowling in the chair. A petition from the people of New Utrecht for a ferry from the foot of Whitehall street was reported to the Committee on Ferries and Franchises.

The Law Committee reported against increasing the penalty for carrying firearms from \$10 to \$100. Hereafter permits for keeping trucks in the streets at night will be issued monthly

only, and no permits will be granted to truckmen living outside of the city. The Mayor vetoed the ordinance requiring covers on a h-carts, c aiming that the present ordinances are sufficient, if enforced. Alderman Mooney's resolution exempting unopened streets in the upper part of the city from the ordinance requiring the removal of snow and ice was passed over the Mayor's

yeto.
The resolution permitting the Fifth Avenue Stage Company to sprinkle sand on Fifth avenue was also passed over the veto.
The Board then adjourned until July 31 at

QUEEN NATHALIE'S PROTEST.

She Says She Has Absolutely Nothing With Which to Reproach Herself.

FBY CABLE TO THE PRESS NEWS ASSOCIATION.] LONDON, July 9. - Queen Nathalie of Ser via has forwarded to the Pall Mall Gazette series of telegrams sent by her to the Servian Prime Minister and the Metropolitan of Belgrade. In them she asserts that she is ignorant of any cause for divorce from King Milan, and trusting to God's justice she will never consent to it.

She declares to the Metropolitan that she has absolutely nothing with which to reproach herself. She has no fear of the light and will accept no clandestine settlement of the difficulty. She charges him not to burden his soul with another sin, and concludes with a strong protestation against the divorce, which she denounces as an indignity and an illegality.

To the Editor of The Evening World:

I have the pleasure in writing to you about the policy shops on the east side. I am a newsboy and sell The Evening World and lose all my earnings in the policy shop at 2 Gouverneur street, one door from Front street. The policy write a name is Stump, and if you should hit a gig he will put up a wrong number.

he will put up a wrong number.

It is becoming very common for newsboys to stake their small earnings in the policy game. They are allured into this sort of gambling by the fishy stories of the policy writers of the immense winnings which always await them at these gambling hells.

The shop in which this newsboy has lost his money is in a front room of No. 6 Gouverneur slip, next door to a barber shop and just west of Front street. The front door is kept barred and the only entrance left open is through a dark hallway between the policy shop and the barber shop, then through a door just behind a stairway, which opens into a dark room in the rear of the room in which the
